DATE: November 12, 2020

TO: Wes Lumry, *Peregrine – Vice President of Business Development*

FROM: Ernest Smith, *Straight Flight, Inc.*

RE: Gulfstream G150 Flap and Slat Actuator Heater System (FSAHS) STC installation for aircraft installs 3 through 5.

## **FIRM FIXED PRICE QUOTE**

Straight Flight has been requested to perform the following: **1)** Install the Peregrine FSAHS STC on 12 jackscrew actuators located in both wings – 6 actuators per wing, heater system control box under the forward fuselage fairing, cockpit controls, circuit breakers and related wiring. **2)** Customer to supply STC kit with acceptable paperwork – including all STC items except standard install hardware and sealants. **3)** Complete paint touch up of removed wing panels to match existing scheme. **4)** Complete required systems test post STC install. **5)** Complete required paperwork for return to service with amended weight and balance.

### **Quote Notations:**

- Price based on open electrical conduit behind forward galley – removal of galley for wiring access is not included in this quote.
- STC kit must include all wiring with identification stamping, connectors, relays, circuit breakers pins, and STC specific parts detailed within the Peregrine drawing bill of materials
- Estimated time for STC completion; 15 days install + 3 days paint = 18 calendar days
- All physical aircraft work to be accomplished at Centennial Airport (KAPA) within Straight Flight’s facilities.
- Pricing is valid for 120 days from the date of this estimate.

### **MATERIALS:**

1) Install supplies ..... \$ 1100.00

### **LABOR:**

1) Installation – Flat fee ..... \$ 34500.00

### **SERVICES**

1) Painting – labor and materials..... \$ 4100.00

### **TOTAL ESTIMATE:**

**TOTAL PRICE PER AIRCRAFT = \$ 39700.00**
